GitHub: <https://github.com/Ryocon/MCU-deep-diver>

- First project working in a team
- Project is based on Marvel characters which will show which movies/tv series/comics that the characters has been in.
- We all had responsibility and we communicated with each other on what we were doing and when so that our codes didn't clash with each other
- For this project, the technologies we used were APIs, HTML, CSS (including the use of Tailwind), Font Awesome and Insomnia
